REMARKS

Applicants request entry of this amendment in accordance with 37 C.F.R.

1.121(d). This amendment serves to indicate the status of the drawings as replacement sheets and to correct other informalities in the drawings. Specifically, the drawings filed as part of RCE transmittal mailed August 22, 2006 were not labeled to identify the status of the drawings. Correction of other informalities has resulted in replacing the previous 26 drawing sheets with 51 replacement drawing sheets (enclosed in Appendix A).

Figures 1, 2, 3, 5, 10, and 13 have been amended to conform to USPTO requirements for font size as defined in 37 C.F.R. 1.84(p)(3). Conforming these text-rich Figures to USPTO standards for font size resulted an increased number of drawing sheets. For example Figure 13 was originally presented in five drawing sheets as Figures 13A-13E, but now comprises 23 sheets, Figures 13A-13W. As the amendments to these figures are limited to formatting issues, annotated sheets showing the amendments made are not included.

Figure 11 has been amended to correct the description on the Y axis. Support for the Figure 11 amendment may be found on page 32, lines 6-10 of the application as originally filed. An annotated sheet showing the amendments made to the drawing is attached herewith in Appendix B.
